Description

COMPACT MAX: the best of Datamars reading technology packed in an extremely reduced form factor!

Thanks to its peripheral antenna, COMPACT MAX features top of range reading distances in only 160x80x20 mm and 170g. The scanner can easily fit in any pocket and is able to read FDX-B (ISO) and FDX-A/Fecava. Its basic protection against water also makes it the ideal scanner to use in any condition. From puppies and kittens to seniors, COMPACT MAX delivers the identification you need.

The scanner can be connected to a PC through its USB port and transfer the microchip codes during or after the reading session. The connection is totally plug and play, no set-up is needed. COMPACT MAX has great ergonomics and a very intuitive icon-based, graphic interface which makes it the easiest reader to use on the market.
